

Assignments on the Development of Digital Data Collection Tools using Google Forms

Assignment 1: Google Forms from Start to End.

Using the [S1_GSA-Graduate-Mental-Health-Survey-Questions-2021-2022](#) questionnaire,

a) Digitize the questionnaire using the Google Forms platform.

Consider the following sections and questions:

- Informed Consent (page 3)
- Demographics (page 3)
 - Only consider Questions:
 - ✓ What is your age (Page 3)
 - ✓ Which category(ies) best describe your race and/or ethnicity? Check all that apply (Page 5)
- Mental Health (Page 8)
 - Only consider Questions:
 - ✓ Have you experienced any mental health concerns related to your graduate program workload (such as anxiety, depression, etc.)? (Page 8)
 - ✓ If yes, how would you describe your mental health concern(s) while in graduate school? (Please note, this does not have to be diagnosed by a mental health professional for you to answer. Please answer based on your perceptions/feelings.) (Page 9)
 - ✓ Have you experienced a mental health crisis while in graduate school? (A mental health crisis is a situation in which your behavior puts you at risk of hurting yourself or others and/or prevents you from caring for yourself or functioning effectively.) (Page 9)
- Resources & Coping Skills (Page 16)
 - Consider all Questions in this section.

b) Share it amongst your colleagues or friends, and receive at least 5-10 responses.

c) Analyze the responses and present a small (2-page) presentation on PowerPoint.

Assignment 2: Quiz Mode

Create a Google Form quiz with the following questions, options, points, and solutions.

NB: Solutions are in blue.

1. Which parasite causes malaria? (2 points)
A. Trypanosoma C. Giardia
