

Digital Data Collection Tools: Google Forms

(Data Collection and Management Module)

26th August 2025

Learning Outcomes

By the end of this training, participants should be able to:

Understand the fundamental core features and functionalities of Google Forms.

Design structured and ethical surveys.

Customize and optimize forms.

Deploy and manage forms effectively.

Collaborate with team members in design of surveys.

Introduction

A google form is a versatile, free web-based tool for gathering information, feedback and data.

Uses

- ☐ Customer Feedback
- ☐ Event Registration
- ☐ Job Applications
- ☐ Internal Surveys
- ☐ Quizzes and Tests
- ☐ Homework Submission
- ☐ Attendance Tracking
- ☐ Polls and Voting

Advantages

- ☐ Free to use
- ☐ Easy to use
- ☐ Allows Collaboration
- ☐ Real-time Data Collection
- ☐ Custom Themes
- ☐ Allows File Uploads

Disadvantages

- ☐ Limited Theme Design
- ☐ No Native Payment Integration
- ☐ Google Account Requirement
- ☐ Basic Reporting Tools
- ☐ Limited Question Types
- ☐ No Offline Access
- ☐ Security and Privacy Concerns

Google Form Creation

Setting up a Google Drive Account

- ❑ Google Drive is a free, web-based office suite and data storage service offered by Google.
- ❑ It allows users to create online documents and edit them collaboratively.
- ❑ It also offers the Google Form option.
- ❑ To set-up a Google Form questionnaire, you need a Gmail account.

Creating a Gmail Account

- ❑ To set-up a Gmail account, Go to www.google.com
- ❑ Click on the **Gmail** button

- ❑ Click on the “**Create an Account**” and fill in the required set-up details.
- ❑ **Remark:** You can always access your account from www.gmail.com

Accessing the Google Drive Account

- ❑ To access your Google Drive Account, Go to www.google.com
- ❑ Click on the **dots** and select **Drive**

Google Form Creation

Creating your First Google Form

- ❑ On your Google Drive folder, click the **New** Button
- ❑ Then select *Google Forms*, an untitled form will appear.

Components of a Google Form

Component	Purpose
Title	Form's Name
Description	Explains the Form's Importance
Questions	Heart of the form. Can be a short answer, multiple choice e.t.c
Responses	Recorded set of Answers provided by a user who fills in the form
Settings	Controls Form Behaviour like collecting emails, limiting responses, setting up quizzes e.t.c
Theme and Design	Customization options for color, fonts and background images
Preview Mode	Allows the developer to see how respondents will see the form
Publish Functionality	Makes the form to be accessible to its intended audience
Collaboration and Sharing Tools	Allows developers to share out the published form and introduce collaborators who can edit it.

The screenshot displays the Google Forms editor interface. At the top, there's a header bar with the text 'Untitled form', a folder icon, a star icon, and the status 'All changes saved in Drive'. To the right are icons for help, settings, undo, redo, share, and a 'Publish' button. Below the header, there are three tabs: 'Questions' (selected), 'Responses', and 'Settings'. The main area shows a preview of the form titled 'Untitled form' with a 'Form description' field. Below this, a question is being edited. It has a text input field labeled 'Question', an image icon, and a dropdown menu set to 'Multiple choice'. There are two radio button options: 'Option 1' and 'Add option or add "Other"'. At the bottom right of the question box, there are icons for a new question, delete, and a 'Required' toggle switch which is currently turned off. A vertical toolbar on the right side of the editor contains icons for adding a new question, duplicating, deleting, changing the question type, adding a section break, and previewing the form.

Form Title and Form Description

- ❑ **Title** gives the form a name.
- ❑ **Description** gives additional guidance to the recipients on the form's purpose.
- ❑ To edit the Form Title and Description, click on the portion written **Untitled Form** and **Form Description** and edit them accordingly.
- ❑ *See Example below:*

The screenshot shows a form interface. At the top, the title 'Facts about Mosquitoes' is displayed in a large, bold font. To the right of the title are two small icons: a close button (an 'X') and a menu button (three vertical dots). Below the title, there is a horizontal line. Underneath this line, a paragraph of text reads: 'This survey aims to understand community knowledge, experiences, and practices related to mosquitoes and mosquito-borne diseases.' Below this paragraph, there is a bulleted list with two items: '• This survey should only be filled for Capacity Building Purposes Only.' and '• You should be 18 years and older for eligibility.' At the bottom of the form, there is another horizontal line.

Preview Mode

- ❑ Google forms allow developers to view and see how respondents view the form.

Importance of Previewing a Form

- ❑ It ensures a smooth and accurate user experience.
- ❑ It allows developers to identify any errors in question design, formatting, or logic before respondents encounter them.
- ❑ It prevents frustration and incorrect responses.
- ❑ A developer can test whether:
 - ✓ The navigation transitions well between sections.
 - ✓ The conditional logic is ok.
 - ✓ The required questions are mandatory.
 - ✓ The response validation restrictions are working.
 - ✓ The overall form layout and flow is ok.

Questions

- ❑ Questions are components included in the Google Form to collect specific information from respondents.

Questions Components

Component	Purpose
Title	Main prompt or query you are asking
Question Type	Layout for different types of questions based on their usage
Inline Image (Optional)	Allows developers to insert images to support questions or enhance visual appeal.
Duplicate	Clones the features and content of a query

Questions

Additional Question Features

- ❑ A Google Form offers additional features to its questions to enhance usability, data quality, and efficiency.

Feature	Usability
Add Question	Insert a new question of any type
Title and Description	Add headings and explanations to sections or group of questions
Video Embedding	Embed youtube videos for context or instructions

Question Types and Uses

Type	Usage
Short Answer	Brief text responses such as names, email addresses or one-sentence answers.
Paragraph	Longer text responses such as feedback, explanations or descriptions
Multiple Choice	Respondents select only one option from such a list.
Dropdown	Similar to multiple choice but options appear in a compact drop down menu.
File upload	Allows respondents to attach files such as documents, images e.t.c. Option requires respondents to sign in.
Checkboxes	Allows selection of multiple options. Useful where more than one answer applies.
Linear Scale	Let users rate something on a scale. Ideal for feedback on satisfaction or agreement levels.
Rating	Similar to Linear Scale but respondents rate using the star-ratings.
Multiple choice grid	Respondents choose one option per row across several categories
Checkbox grid	Respondents can select multiple options per row
Date	Collects a specific date such as birthdate, appointment e.t.c.
Time	Collects a specific time such as meeting time, duration e.t.c.

The screenshot shows the Google Forms editor interface. At the top, there are tabs for 'Questions', 'Responses', and 'Settings'. The main title of the form is 'My First Google Form'. Below the title, there is a description: 'This survey only targets male and female recipients from West Africa. You m'. On the right side, there is a sidebar with a list of question types, each with a corresponding icon and a 'New' badge next to the 'Rating' option. The question types listed are: Short answer, Paragraph, Multiple choice (selected), Checkboxes, Dropdown, File upload, Linear scale, Rating, Multiple choice grid, Checkbox grid, Date, and Time.

Practical Example: Question Types

Question Title	Question Type	Answer Options
What is your age in years?	Short Answer	Open Ended (Restrict age to be 18 years and above)
Give some brief experience on how mosquitoes have affected the lives of those living around you.	Paragraph	Open-Ended
Which is your country of birth?	Multiple Choice	Kenya Somalia Ethiopia Other (Please specify)
What is your Gender	Dropdown	Male Female Prefer not to Answer
Upload an image of a mosquito that causes West Nile virus.	File upload	
Which of the following disease(s) are spread by the Asian tiger mosquito?	Checkboxes	Dengue Zika West Nile Chikungunya Don't Know
Rate your knowledge on mosquito prevention methods	Linear Scale	1=No knowledge 5=Very knowledgeable
Rate your efficiency in mosquito prevention activities.	Rating	Max: 5 Stars
How often do you do the following mosquito prevention activities? 1.Use mosquito nets 2. Empty stagnant water repelants 3. Participate in community clean-ups	Multiple choice grid	Daily / Weekly / Monthly / Rarely / Never (Require one response per row)
What time are you most likely to contract the following diseases: 1. Chikingunya 2. Malaria	Checkbox grid	Day Night
What is the date today?	Date	
What is the current time?	Time	

Sections

- ❑ Sections add new pages to the google form.

Importance of Sectioning Forms

- 1 Improves form organization and flow by breaking long forms into manageable parts.
- 2 Incorporates conditional logic or branching by allowing respondents “*Go to Section*” based on answer, enabling respondents to skip irrelevant sections.
- 3 Enhances clarity and structure allowing users to add titles and descriptions in each section.
- 4 Facilitates grouping of related data for easier analysis

Practical Example: Sections

- ❑ Using the Questions prepared in the previous example, subdivide the questions into the following three sections:

Section Name	Information/ Instruction	Additional Instructions
Introduction and Consent	<i>Include Statement:</i> <i>This survey aims to understand community knowledge, experiences, and practices related to mosquitoes and mosquito-borne diseases. Your responses will help improve public health interventions and training programs. Participation is voluntary, and your responses will be kept confidential.</i>	Multiple Choice Answers: ▪ I consent to participate in this survey ▪ I do not consent
Personal Details	Only include questions not related to malaria	
Mosquito Awareness Facts	Include all questions related to malaria	

Settings

- ❑ This component allows developers to control how their form behaves for respondents and how responses can be managed.
- ❑ It controls form behavior like collecting emails, limiting responses or quiz mode; enhancing functionality, privacy, and customization.
- ❑ There are 3 different setting categories:

Category	Functionality
General (Response)	Manages how responses are collected and protected.
❑ There 5 major features of Responses.	
Quizes	Converts the form into a quiz allowing for grading.

General (Responses) Settings

- ❑ These settings manage how responses are collected and protected.

The screenshot shows the 'Responses' settings panel. At the top, it says 'Responses' and 'Manage how responses are collected and protected'. Below this, there are several settings: 'Collect email addresses' set to 'Do not collect', 'Send responders a copy of their response' set to 'Off', 'Allow response editing' which is a toggle switch currently turned on, 'Limit to 1 response' which is also a toggle switch currently turned on, and 'FILE UPLOAD' with a 'Total size limit for all uploaded files' set to '1 GB'. A 'Learn more' link is at the bottom left of the panel.

- ❑ It's features include:
 - ✓ **Collect email addresses:** Useful for follow-up or authentication.
 - ✓ **Limit to 1 Response:** Prevent duplication of entries (requires sign-in)
 - ✓ **Allow Response Editing:** Respondents can revise their answers after submission when this is toggled on.

Presentation Settings

- ❑ These settings manage how the form and responses are presented.

The screenshot shows the 'Presentation' settings page. At the top, it says 'Presentation' and 'Manage how the form and responses are presented'. Below this, there are three main sections: 'FORM PRESENTATION', 'AFTER SUBMISSION', and 'RESTRICTIONS:'. Under 'FORM PRESENTATION', there are two toggle switches: 'Show progress bar' (which is turned on) and 'Shuffle question order' (which is turned off). Under 'AFTER SUBMISSION', there is a 'Confirmation message' field with the text 'Your response has been recorded' and an 'Edit' button. Below that is a 'Show link to submit another response' toggle switch (turned on) and a 'View results summary' toggle switch (turned off). The 'View results summary' section also includes the text 'Share results summary with respondents. Important details'. Under 'RESTRICTIONS:', there is a 'Disable autosave for all respondents' toggle switch (turned off).

- ❑ It's features include:
 - ✓ **Progress Bar:** Shows respondents how far along they are in submitting form.
 - ✓ **Shuffle question order:** Randomizes questions to reduce bias or cheating.
 - ✓ **Confirmation message:** Custom thank-you or next-step instructions after submission.
 - ✓ **View results summary:** See summary charts and text responses.

: Lets respondents view aggregated results.

Quiz Mode Settings

- ❑ This setting converts the form into a quiz to allow for grading.
- ❑ It allows developers to assign values, set answers, and automatically provide feedback.

The screenshot displays the 'Make this a quiz' settings page in Google Forms. At the top, the toggle for 'Make this a quiz' is turned on. Below this, the 'RELEASE GRADES' section has two radio button options: 'Immediately after each submission' (selected) and 'Later, after manual review'. The 'CHROMEBOOK SETTINGS' section includes a 'Locked mode' toggle, which is currently off. Under 'RESPONDENT SETTINGS', there are three toggle switches: 'Missed questions' (on), 'Correct answers' (on), and 'Point values' (on). The 'GLOBAL QUIZ DEFAULTS' section at the bottom shows the 'Default question point value' set to 1 point.

Make this a quiz
Assign point values, set answers, and automatically provide feedback

RELEASE GRADES

☒ Immediately after each submission

☐ Later, after manual review
Turns on Responses → Collect email addresses

CHROMEBOOK SETTINGS

Locked mode
Respondents aren't allowed to open tabs or other applications while taking this quiz. This feature is only available to schools using managed Chromebooks. [Learn more](#)

RESPONDENT SETTINGS

Missed questions
Respondents can see which questions were answered incorrectly

Correct answers
Respondents can see correct answers after grades are released

Point values
Respondents can see total points and points received for each question

GLOBAL QUIZ DEFAULTS

Default question point value
Point values for every new question

1 points

Example Trivia Quiz : <https://forms.gle/v3GHPpADp9Mxvv76A>

Practical Example: Quizzes

- ❑ Create a new Google Form and make it a Quiz
- ❑ Set the following Questions ([Answers in Blue](#)):
 1. How many minutes are there in a full week?
A. 1008 B. 1440 C. 7200 [D. 10080](#)
 2. What type of mosquito can transmit chikungunya virus to humans?
A. Anopheles B. Culex [C. Asian Tiger](#) D. Toxorhynchites
- ❑ NB: Total Mark for each question is 25 points each

Procedure (Creating the Quiz)

- ❑ Step 1: Go to forms.google.com
- ❑ Step 2: Click on the **Blank Form (+)** Button.
- ❑ Step 3: Add in the two questions as multiple choice questions.
- ❑ Step 4: Go to settings, make a quiz and fill in the required details.

The screenshot shows the 'Questions' tab of a Google Form titled 'My First Quiz'. The 'Form description' field is empty. Below it, a question is added: 'How many minutes are there in a full week?'. The question type is set to 'Multiple choice'. There are five radio button options: '1008', '1440', '7200', '10080', and 'Add option or add "Other"'. Each option has a delete 'X' button to its right. The 'Questions' tab is highlighted with a red box.

The screenshot shows the 'Settings' tab of the Google Form. The 'Make this a quiz' toggle is turned on and highlighted with a red box. Below it, the 'RELEASE GRADES' section shows 'Immediately after each submission' selected with a radio button, also highlighted with a red box. The 'CHROMEBOOK SETTINGS' section shows 'Locked mode' with a toggle switch. The 'RESPONDENT SETTINGS' section is partially visible at the bottom. The 'Settings' tab is highlighted with a red box.

Procedure (Creating the Quiz)-Continuation

- ❑ Step 5: Go back to *Questions* menu and click on *Answer Key*.
- ❑ Step 6: Allocate the number of points per question and tick in the correct answer.

What type of mosquito can transmit chikungunya virus to humans?

☐ Anopheles

☐ Culex

☐ Asian Tiger

☐ Toxorhynchites

☐ Add option or [add "Other"](#)

☒ Answer key (1 point)

Questions Responses Settings Total points: 26

☒ Choose correct answers:

What type of mosquito can transmit chikungunya virus to humans?

☐ Anopheles

☐ Culex

☒ Asian Tiger

☐ Toxorhynchites

[Add answer feedback](#)

25 points

- ❑ If you wish you can *Add answer feedback* for your respondents.

Add feedback

Incorrect answers Correct answers

Theme Customization

- ❑ Google forms enable users to reinforce their branding, improve readability and make the form more engaging.
- ❑ Customization allows users to change fonts, add background images to match your organization or topic.

- ❑ It has 4 main features:

Feature	Functionality
Header Image	❑ Upload a banner or choose from google’s gallery. ❑ This section is ideal for logos or course tittles.
Theme Color	❑ Set the accent color for buttons and highlights. ❑ Users should choose a color that aligns with their organization or topic.
Background Color	❑ Lightens or darken the form’s backdrop. ❑ Users are advised to stick to soft tones for readability
Font Style	❑ Choose from Basic, Decorative, Formal, or Playful. ❑ Users are advised to use formal or basic for professional surveys.

Form Publishing

- ❑ Publishing a form is essential as it makes it accessible to its intended audience for collection of responses.
- ❑ Unpublished forms appear blank even with the correct link.

- ❑ Publishing allows you to control who can access and respond to your form through the *Editor view* and *Responder view*.
- ❑ This allows access to specific individuals, a general link or within an organization.

Sharing a Published Google Form

- ❑ There are several methods for sharing a published Google Form:
 - ✓ Send it via email.
 - ✓ Share a link
 - ✓ Embed it on a website
 - ✓ Share it on social media.
- ❑ When sharing the form, you can also choose to allow other users to collaborate on it or simply respond to it.

Responses

- ❑ These are recorded sets of answers provided by a user who fills out and submits a Google Form.

- ❑ There 5 major features of Responses.

Feature	Purpose
Automatic Collection	Responses are saved instantly once the form is submitted.
Multi-faceted View	Developer can view responses on a variety of ways: Individual, Question, and Summary
Timestamped Entries	Each response includes the date and time of submission.

Viewing Responses

Individual View

- ❑ This sub-tab allows the developer to see how each respondent completed the entire form.

The screenshot shows the 'Responses' tab of a form builder interface. At the top, there are tabs for 'Questions', 'Responses' (with a count of 4), and 'Settings'. The 'Total points: 10' is displayed on the right. Below the tabs, the header '4 responses' is shown, along with a '+ View in Sheets' button and a menu icon. A navigation bar contains three tabs: 'Summary', 'Question', and 'Individual' (which is highlighted with a red box). Below this bar is a pagination control showing '< 1 of 4 >' (also highlighted with a red box). The main content area shows '0 of 100 points' and 'Score released Aug 8 7:31 AM'. The form title 'TRIVIA QUIZ' is displayed, followed by the instruction 'Assist me in filling in the following Trivia Quiz.' The first question is 'How many minutes are there in a full week?' with a score of '0 / 20'. Two radio button options are shown: 'A) 1008' (selected, highlighted with a red box and a red 'X' icon) and 'B) 1440'.

- ❑ The developer can switch between individual responses.

Viewing Responses

Question View

- ❑ This sub-tab allows the developer to see how all respondents answered a specific question.

The screenshot displays the 'Question View' interface. At the top, there are tabs for 'Questions', 'Responses' (which is active and has a '4' badge), and 'Settings'. To the right of these tabs, it says 'Total points: 10'. Below the tabs, there are three sub-tabs: 'Summary', 'Question' (which is active and highlighted with a red box), and 'Individual'. The 'Question' sub-tab shows a question: 'What is the largest organ of the human body'. Below the question, there are two response options: 'C) Skin' (which is selected and marked correct with a green checkmark) and 'B) Liver' (which is marked incorrect with a red X). The 'C) Skin' response is highlighted with a green bar, and the 'B) Liver' response is highlighted with a red bar. There are also buttons for 'View options' and '3 responses' (highlighted with a red box). At the bottom, there is a '1 response' button (highlighted with a red box) and a 'Great' button with a pencil icon. The interface also shows a progress bar with '2 of 5' questions completed.

- ❑ The developer can navigate between questions.

Viewing Responses

Summary View

- ❑ This sub-tab provides a summary of all responses, including graphical representations for certain question types (e.g. multiple choice, checkboxes).

Linking Responses to Google Sheets

- ❑ To link a Google Form to a Google Sheet, In the “**Responses**” tab, click on the Green icon titled **Link to Sheets**.

- ❑ A user can choose to create a new spreadsheet or link to an existing or new spreadsheet.
- ❑ Each row has one respondent, and each column responds to one question.

- ❑ You can access your Google spreadsheets from sheets.google.com

Exporting Responses to Ms. Excel (.csv)

- ❑ Google forms allow developers to download their responses in .csv format.
- ❑ This allows for offline use or integration with other tools for analysis.
- ❑ To download responses data in .csv format, click on “**Responses tab**”,
- ❑ *Click on the three dots and then click on **Download responses (.csv)***

Response Management

For ethical and responsible data handling

Turn off accepting responses when survey closes.

Use pseudonyms or codes instead of names if anonymity is needed.

Store sheets in a secure Google Drive folder with restricted access.

Consider adding a consent question in the form to document approval

Thank you For Listening
